

# Princess Feet

Words: Saroni Roy

**The luxurious OPI Finger Facial Pedicure offered by the NailBar at Juice helps you put your best foot forward.**

With foot spas becoming more and more luxurious, the new OPI Finger Facial Pedicure is surely the ultimate indulgence for your feet! This treatment makes use of the OPI professional range of products such as the Soak, Soften, Scrub, Mask, Massage and Smooth to leave your feet rejuvenated and glowing. Just the thought of a pampering pedicure with the new OPI range was inviting, and I landed up at the Nail Bar at the Juice Hair Salon to get soft and beautiful feet!

The technician welcomed me and started with cutting and filing my toe nails and shaping them.

Then my feet were

soaked in a tub of hot water with the OPI Pedicure Salt and Pedicure Soak in it. The OPI Cuticle Cream is applied

on the nails and soaked in the hot water for 2-3minutes followed by cleansing and cuticle cutting.

The OPI Soften is then massaged onto my feet and wrapped in a towel for 5 minutes. To soften the rough skin, the OPI Scrub is applied and scrubbed for 5-7minutes to de-tan and remove the dead skin. And after washing my feet with warm water, a generous portion of the OPI Massage Cream is applied and massaged for 10-15minutes. Then the skin is cleansed thoroughly using a hot napkin.

The avocado, grapefruit and tea tree oil extracts in the products not only offer a wide range of benefits to the skin but also make for an indulgent spa experience with the refreshing aromas! After all the scrubbing and cleansing, hot paraffin wax is applied and my feet are wrapped with aluminum foil and kept for about 10 minutes. Then the wax is peeled off and a leave in application of OPI Smooth and OPI Soothe is applied. Finally, my toes were painted with a funky shade of OPI nail lacquer and I was left with supple and gorgeous feet!SS

Duration: 60 minutes

Price: Rs.1000-1200
